## Public Statements

EcoEngineers is accredited by the American National Standards Institute (ANSI) National Accreditation Board (ANAB) as a greenhouse gas (GHG) verification body in accordance with ISO standards ISO/IEC 17029:2019, ISO 14065:2020 and ISO 14064-3:2019. The specific scope accreditation granted is verification of assertions related to:

- GHG emission reductions and removals at the project level activities under ANAB scope 01 – GHG emission reductions from fuel combustion.
- Verification of applications and reports under the Canadian Clean Fuel Regulations, Sector 2 – Renewable/Bio/Low-CI Fuels.

### **IMPARTIALITY:**

EcoEngineers performs validation/verification activities (and related activities). We are committed to maintaining and safeguarding impartiality and monitoring for and eliminating any threat to impartiality.

### **VALIDATION / VERIFICATION SERVICES:**

EcoEngineers' greenhouse gas (GHG) validation/verification services include a wide range of regulatory-driven GHG reporting frameworks. This includes California Air Resources Board (CARB) Mandatory Greenhouse Gas Reporting Regulation (MRR), Low Carbon Fuel Standards (LCFS), Oregon Department of Environmental Quality (DEQ) Clean Fuel Program (OR-CFP) and Canadian Clean Fuel Regulations.

EcoEngineers offer verification services to renewable natural gas (RNG) generators for renewable thermal certificate (RTC) associated with the RNG production injected into the commercial pipeline and are transacted on the Midwest Renewable Energy Tracking System (M-RETS®), a registry platform that tracks voluntary RNG in the U.S.

As an accredited GHG verification body, EcoEngineers is qualified to perform third party, independent verification requirements under the Inflation Reduction Act.

### **COMPLAINTS AND APPEALS PROCESS:**

EcoEngineers has established a client satisfaction survey to collect information for Complaints and Appeals process for validation/verification activities and to help ensure client satisfaction.

EcoEngineers will take action (e.g. via a complaint) to correct inappropriate claims by any consultancy organization stating or implying that verification would be simpler, easier, faster, or

---

less expensive if EcoEngineers were used. EcoEngineers will not state or imply that verification would be simpler, easier, faster, or less expensive if a specified consultancy organization were used.

**MARKS:**

The EcoEngineers<sup>SM</sup> websites, including, but not limited to, all branding, text, graphics, and media including video, photographs, audio, artwork, code, and design contained on or available through the sites, unless otherwise indicated, are copyright of TPR Enterprises, D.B.A. EcoEngineers. The EcoEngineers name and logo service marks applications are in review with the Patent and Trademark Office (PTO). **CONFLICTS OF INTEREST:**

EcoEngineers does not provide auditing services to its consulting clients when there is a conflict of interest.

**OTHER INFORMATION:**

EcoEngineers maintains and, upon request, provides clear, traceable, and accurate information about activities and the sectors in which we operate. EcoEngineers provides, upon request, the status of a given validation/verification statement, unless otherwise specified in the program. Contact us at [clientservices@ecoengineers.us](mailto:clientservices@ecoengineers.us) for more information about our services and accreditations.

**About EcoEngineers**

EcoEngineers is a consulting, auditing, and advisory firm with an exclusive focus on the energy transition. From innovation to impact, we help you navigate the disruption caused by carbon emissions and climate change. We help you stay informed, measure emissions, make investment decisions, maintain compliance, and manage data through the lens of carbon accounting. Our team consists of engineers, scientists, auditors, consultants, and researchers with deep expertise on global fuels policy, energy and carbon markets, and alternative solutions to meet energy demands. Eco was established in 2009 to steer low-carbon fuel producers through the complexities of emerging energy regulations in the United States. Today, our global team is shaping the response to climate change by advising businesses across the energy transition. Together, we can create a world where clean energy fuels a healthy planet.
